FROM THE PRESIDENT

As we approach Cumberland's 75th Anniversary in September 2012 I write to advise you of the progress of a number of matters around the Club.

The draw of the 75th Anniversary Major Raffle will occur on the evening of December 23rd making one lucky patron's Christmas all that much brighter. I encourage you to purchase your last minute tickets for your chance to not only win the fantastic prize, valued at \$9,250 incl. GST, but also the club's permission to use the cart on our course for the duration of your ownership. Permission is normally only granted for medical reasons so it is certainly worth winning. A big thank you to Yamaha Motor for their sponsorship of this promotion and their continued support of Cumberland Country Golf Club.

Hand in hand with this support has been the provision of the 75th Anniversary Bag Tags for our golfing members. It has been a pleasure to provide this memento and the letters of appreciation from our members have been overwhelming. It has been fantastic to see the bag tags displayed with pride of place on the golf bags of our members.

New Year's Eve promises to be another big night after sellouts in 2009 and 2010. Dinner is served from 6pm and we have entertainment from 6pm through to the early hours of 2012. Get in fast to secure your table. Locals can also book a seat on the courtesy bus to take them home in safety.

A big welcome to Mark Bonello who is providing Half Way House services from late December. Mark will provide some of the warming food we have been missing for so long and importantly the food will only be provided in such a way so as to ensure pace of play is not affected. Please enjoy the facilities Mark brings to the Club but do your best to ensure the field is not delayed because of your purchase.

Joanne Bannerman continues her development of members' services in the Pro Shop and together with the newly constructed counter area, touch screen kiosk and shop layout is the Tech Centre. This is a fantastic facility capable of video analysis of swing path, club face angle, club head speed, launch angle and many other aspects of your game. A 30 minute lesson is \$50, 45 minutes is \$70 and 1 hour is \$90.

As tabled at the 2011 AGM we have continued development of the Terrace Proposal. Several refinements have been made and plans will soon be on display for

member's feedback and constructive critique. We are currently discussing the financing of this project with our bank however the Federal Government's push to introduce mandatory pre-commitment legislation will place this project on an indefinite hold. We continue to lobby against this back door deal through our industry associations but rest assured; its introduction will change the face of Cumberland Country Golf Club and dramatically reduce the services and course facilities enjoyed by our members.

With the pending introduction of the slope handicapping system we have taken the opportunity to look at a re-index of the course. It has been a number of years since this has been done and the Match Committee thought a review was timely. Nine months of stroke round scores were used in the analysis and the process is now complete. The table over page shows what the index is currently and what the new index will be.

Our own Professional Trainee, Daki Falcon has finished his first year in the PGA in style. Daki won the NSW Trainee Order of Merit and Champion of Champions. Well done Daki! Finally, on behalf of the Board and staff of the Club, I wish you well for the Christmas period and trust you have the opportunity for plenty of time with your family and golf with your friends.

Yours sincerely,

DAVID MOULE

President
